CHUKWUEBUKA SAMUEL

Detail-Driven Problem Solving, Data-Driven Campaigns, Social Media Strategy

+2348068394845 seaslink17@gmail.com Aba, Abia State, Nigeria Open to Remote (US & Nigeria markets)

CAREER SUMMARY

Digital marketing professional with hands-on experience driving product awareness, social media growth, and revenue for a technology company's digital product line. Led social media and blog strategy from the front — posting daily, building an organic content engine, and growing Facebook following by 75% (2,000 to 3,500) in under six months without paid spend, before layering in targeted ad campaigns to accelerate customer acquisition. Contributed to a 15% annual sales increase, 30% growth in market reach growth over a one-year period. Combines this marketing execution with a strong analytical foundation in data analysis, using metrics to guide decisions rather than guesswork.

Currently applies the same growth mindset running Seaslink Technologies as a co-founder.

CORE STRENGTHS

- Social Media Strategy & Growth
- Digital Product Marketing
- Attention to Detail & Accuracy
- Paid & Organic Campaigns
- Process Improvement
- Curiosity for New Technology / AI
- Data-Driven Decision Making
- Business Tools & CRM Platforms
- Cross-Functional Collaboration

TECHNICAL SKILLS & TOOLS

Platforms: Facebook, LinkedIn (organic content & paid campaigns), Content Management
Analysis: Microsoft Excel (Advanced), Data Visualization, Performance Reporting & Dashboards
Productivity Suite: Microsoft Word, Excel, PowerPoint, Outlook

PROFESSIONAL EXPERIENCE

Digital Product Manager & Marketing Lead

2021 – 2022

Ashpot Microsystems Ltd

- Led digital marketing and product awareness for the company's suite of digital products, owning strategy end-to-end before the company brought on a dedicated marketing director.
- Grew the company's Facebook following from roughly 2,000 to 3,500 (+75%) in under 12 months through organic content and a company-wide advocacy push — no paid ads required to hit that milestone.
- Posted content virtually across our social media platforms and managed the company blog to sustain visibility and engagement between campaigns.
- Planned and ran targeted digital ad campaigns for specific product lines once organic momentum was established, funneling prospective customers toward purchase.
- Contributed to a 15% increase in annual sales and a 30% increase in market reach during my tenure in the role.

Co-Founder / Operations Lead *2022 – Present*

Seaslink Technologies

- Applied the same growth and brand-building instincts from Ashpot to building Seaslink from the ground up, owning multiple functions including customer-facing communication and operations.
- Spotted a recurring inefficiency in internal reporting and redesigned the workflow, cutting the cycle time by roughly 25% within a year.
- Prepare data-driven reports for leadership, translating performance data into clear recommendations.

Alumni South East Coordinator *2023 – Present*

Fate Foundation (NGO)

- Build and maintain relationships with alumni, partner organizations, and government stakeholders across the South-East region.
- Track engagement data and translate it into reporting for leadership and international partner organisations.

Data & Inventory Analyst *2019 – 2021*

Xen People Limited

- Generated monthly analytical reports on performance and business metrics for senior management.
- Designed tracking and audit processes that improved transparency and reduced discrepancies for corporate clients.

Earlier Experiences

Data Entry Personnel / Plant Operator, DC Danek – Nigerian Breweries (2015–2019)

Graduate Support Intern, State Kunoch/NIIT Ltd (2014).

EDUCATION

Higher National Diploma (HND) in Computer Science — Upper Credit
Abia State Polytechnic, Aba, Abia State, Nigeria | 2009 – 2014

West African Senior School Certificate Examination (WASSCE)
Community Secondary School, Obokwe Asa, Abia State, Nigeria | 2008
